DOSSIER NO.014

Mercedes-Benz SLR McLaren

This collaboration between Mercedes-Benz and McLaren is a technological wonder. The chart says 0-to-62 mph in 3.8 seconds and 0-to-124 mph in 10.9 seconds; however, it doesn't mention the baso profundo of the sidepipes or the supercharger's shrill shrieks, aural gratification that never lets up until, in the right conditions, the McLaren reaches 206 mph. The skeleton of the car is a lightweight carbon-fiber monocoque tub with a separate crash structure up front.
